

The Intersection of Specialties and Geriatrics: Commitment to Optimizing Patient Outcomes

Saturday, May 15, 2010, 7:00 am - 12:30 pm

The Ninth Annual Meeting of the Section for Enhancing Geriatric Understanding and Expertise among Surgical and Medical Specialists (SEGUE)

Developed and supported by The John A. Hartford Foundation supported Geriatrics-
for-Specialists Initiative, *Increasing Geriatrics Expertise in Surgical and Related
Medical Specialties*

Learning Objectives:

1. To appreciate the risks and benefits of an evidence-based consideration of surgery versus expectant management in the older male with prostate cancer.
2. To consider the transition of care issues in acute operative plans of our older patients.
3. To better understand outcomes of orthopaedic surgery with a geriatric perspective.
4. To better appreciate the benefits of surgeons partnering with our geriatric colleagues to optimize perioperative outcomes.

7:00 am **Continental Breakfast**

7:30 am **Welcome and Introductions**

Holly E. Richter, PhD, MD

Department of Obstetrics & Gynecology University
University of Alabama at Birmingham

7:45 am **Case Presentation: Why the Fracture is Only Part of the Picture**

This panel will address the case of Mrs. F. who is an 81 year old female who ambulates at baseline with a walker. While at her nursing home, she falls, hitting

her head, has loss of consciousness, and has significant right hip pain.

Together,

the panelists will track this case from presentation at the ED through to discharge.

They will address best practices that lead to improved outcomes and potentially reduce hospital re-admissions.
