

AMERICAN GERIATRICS SOCIETY 2010 ANNUAL SCIENTIFIC MEETING  
MAY 12- 15, 2010  
ORLANDO, FL

**SESSIONS APPROVED FOR PHARMACY CREDIT**

**WEDNESDAY, MAY 12**

**INDUSTRY-SUPPORTED SYMPOSIA (dinner served)**

**6:30 – 9:00 PM**

**MANAGING ATRIAL FIBRILLATION IN THE OLDER PATIENT**

**UAN: 203-999-10-074-L01-P 2.0 contact hours**

Activity Type: Knowledge-based

Moderator:

Michael W. Rich, MD

Professor of Medicine

Cardiovascular Division

Washington University School of Medicine

*This activity is supported by an independent educational grant from Boehringer Ingelheim Pharmaceuticals, Inc.*

Learning Objectives: (1) discuss the recommendations of the American College of Cardiology (ACC), the American Heart Association (AHA) and the European Society of Cardiology (ESC) Guidelines and their effectiveness in managing AF to prevent stroke; (2) discuss the risks and benefits of treatment options, including warfarin alternatives; (3) describe the co-morbidities and geriatric syndromes common among older adults with AF and understand the need to take an individualized management approach to care; and (4) manage AF pharmacologically with the awareness of polypharmacy issues.

**Can the ACC/AHA/ESC Guidelines Improve the Management of Atrial Fibrillation?**

Thomas A. Burkart, MD, FACC

Assistant Professor of Medicine

Medicine/Division of Cardiology/Electrophysiology Section

University of Florida College of Medicine

**Pharmacological Treatment of AF Beyond Warfarin**

Sean M. Jeffrey, PharmD

Associate Clinical Professor

Department of Pharmacy Practice

University of Connecticut

**Management of Older Patients Diagnosed with AF and Multiple Comorbidities**

Mark A. Supiano, MD

Professor and Chief Division of Geriatrics

Department of Internal Medicine

University of Utah

**6:30 – 9:00 PM**

**ANEMIA AND CHRONIC KIDNEY DISEASE: 2010 UPDATE**

**UAN: 203-999-10-075-L01-P 2.0 contact hours**

Activity Type: Knowledge-based

Moderator: Eric G. Tangalos, MD, FACP, AGSF, CMD

Supported by an educational grant from Centocor Ortho Biotech Services LLC

Learning Objectives: (1) discuss prevention methods for anemia in CKD with a healthcare team and older patients; (2) identify patients who are at-risk of developing anemia of CKD; (3) develop therapy courses for older people with CKD which combine healthy lifestyle choices and medication; and (4) describe best practices in the management of anemia and CKD.

**Assessment and Diagnosis of Anemia in CKD**

David R. Thomas, MD, FACP, AGSF, GSAF

Professor of Medicine

Division of Geriatric Medicine

Saint Louis University

**Management of Patients with CKD before Dialysis**

Eric G. Tangalos, MD  
Professor of Medicine  
Primary Care Internal Medicine  
Mayo Clinic

**Medication to Correct Anemia in CKD**

Manju T. Beier, PharmD, CGP  
Clinical Associate Professor of Pharmacy  
College of Pharmacy  
The University of Michigan

**THURSDAY, MAY 13**

**9:45 – 10:45 AM**

**HENDERSON STATE-OF-THE-ART LECTURE:  
DELIRIUM—APPLYING RESEARCH TO TRANSFORM CARE AT THE BEDSIDE**

**UAN: 203-999-10-076-L01-P 1.0 contact hour**

Activity Type: Knowledge-based

Speaker:

Sharon K. Inouye, MD, MPH  
Professor of Medicine  
Harvard Medical School

Learning Objectives: (1) identify key features of delirium using the Confusion Assessment Method (CAM); (2) describe the multifactorial risk factors contributing to delirium; (3) utilize preventive strategies for delirium; and (4) recognize and prevent delirium in older patients.

**6:30 – 9:00 PM**

**INDUSTRY-SUPPORTED SYMPOSIA**

**IMPROVING THE CARE OF THE OLDER PERSON WITH TYPE 2 DIABETES**

**UAN: 203-999-10-077-L01-P 2.0 contact hours**

Activity Type: Knowledge-based

Moderator:

Jeffrey B. Halter, MD  
Professor of Internal Medicine  
University of Michigan

*This activity is supported by an independent educational grant from Boehringer Ingelheim Pharmaceuticals, Inc.*

Learning Objectives: (1) describe the co-morbidities and geriatric syndromes common among older adults with T2DM; (2) discuss the need to take an individualized management approach to care; (3) consider the risks and benefits of treatment options, including appropriate management options for symptoms and side effects; and (4) manage T2DM pharmacologically with the awareness of polypharmacy issues.

**Diabetes in Vulnerable Older Persons**

Caroline Blaum, MD, MS  
Professor of Internal Medicine  
University of Michigan

**New Drug Regimens for Hyperglycemia in Type 2 Diabetes**

Richard E. Pratley, MD  
Professor of Medicine  
Medicine/Endocrinology, Diabetes and Metabolism  
University of Vermont College of Medicine

**Implementing a Complex Hyperglycemia Management Program: Setting Goals and Achieving Adherence**

Barbara Resnick, PhD, CRNP  
Professor, Adult Health

**FRIDAY, MAY 14**

**INDUSTRY-SUPPORTED SYMPOSIA (breakfast served)**

**7:00 – 9:00 AM**

**ADULT VACCINATION IN 2010**

**UAN: 203-999-10-078-L01-P**

**2.0 contact hours**

Activity Type: Application-based

Moderator:

Kenneth E. Schmader, MD  
Professor of Medicine-Geriatrics, Division Chief  
Department of Medicine  
Duke University and Durham VA Medical Centers

Supported by an educational grant from Merck Sharpe & Dohme Corp.

Learning Objectives: (1) explain the importance of routine vaccination for adults, and strategies to increase immunization rates; (2) utilize the latest evidence for the benefits and risks for pneumococcal in older adults; (3) utilize the latest evidence for the benefits and risks for influenza vaccination in older adults; and (4) implement current recommendations for the use of zoster vaccine in the older adults, and address barriers with the implementation of these recommendations.

**Pneumococcal Vaccination in Older Adults**

Kevin P. High, MD, MS  
Professor of Medicine and Translational Science  
Internal Medicine/Infectious Diseases  
Wake Forest University School of Medicine

**Influenza Vaccination in Older Adults**

Stefan Gravenstein, MD  
Professor, Department of Medicine  
Brown University, University Medicine, Quality Partners of Rhode Island

**Zoster Vaccine: Current Status and Future Prospects**

Michael N. Oxman, MD  
Professor, Staff Physician  
University of California, San Diego; VA San Diego Healthcare System

**Strategies to Improve Immunization Rates**

Amy H. Lyons, RN, MS, CIC  
Infection Control Coordinator  
Department of Medicine  
VA Healthcare System

**MEET-THE-EXPERT**

**7:30 –9:00 AM**

**VITAMIN D - IMPLEMENTATION OF HIGHER-THAN-RDA DOSING IN A NURSING HOME CHAIN**

**UAN: 203-999-10-079-L01-P**

**1.5 contact hours**

Activity Type: Application-based

Presenter:

F. Michael Gloth, III, MD  
Associate Professor of Medicine/Corporate Medical Director  
Johns Hopkins U. Sch. of Med/Mid-Atlantic Health Care

Learning Objectives: (1) prescribe appropriate amounts of vitamin D to maintain adequate vitamin D status in homebound nursing home residents; (2) develop a strategy for implementing facility(-ies)-wide standing interventions for vitamin D supplementation; (3) identify risk and benefits to prescribing vitamin D with and without calcium supplementation; and (4) construct a monitoring mechanism of compliance and impact of a vitamin D supplementation program that incorporates at least fall rates, fracture incidence, costs, and depressive symptoms.

**FRIDAY, MAY 14**

**SYMPOSIA**

**12:30 – 2:00 PM**

**THE SCIENCE AND ART OF DISCONTINUING MEDICATIONS: CHALLENGES AND CONTROVERSIES**

**UAN: 203-999-10-080-L01-P**

**1.5 contact hours**

Activity Type: Application-based

Developed by the Polypharmacy Special Interest Group and the Pharmacists Section.

Moderator: Michael Steinman, MD

Learning Objectives: (1) describe evidence about medication discontinuation, and to identify gaps in the evidence base; (2) discuss ethical and legal issues in medication discontinuation; (3) apply a thoughtful approach to discontinuing medications; and (4) develop strategies for safely and effectively discontinuing medications.

**Concepts and Approaches to Medication Discontinuation**

Holly M. Holmes, MD

Assistant Professor

General Internal Medicine

UT MD Anderson Cancer Center

**The Evidence Base for Medication Discontinuation**

Kevin T. Bain, PharmD, MPH, BCPS, CGP, FASCP

Vice President

Clinical Support

excelleRx, Inc., an Omnicare company

**Practical Strategies for Discontinuing Medications**

Michael Steinman, MD

Assistant Prof of Medicine

Department of Geriatrics

University of California, San Francisco

**Moderated Point-Counterpoint Discussion**

Ronald I. Shorr, MD, MS

Director, GRECC (182)

Malcom Randall VAMC

Thomas E. Finucane, MD

Professor

Department of Medicine

Johns Hopkins University School of Medicine

Janice L. Feinberg, PharmD, JD

Research Director

ASCP Foundation

Michael Steinman, MD

**12:30 – 2:00 PM**

**MANAGEMENT OF BEHAVIOR DISTURBANCES IN DEMENTIA/DELIRIUM**

**UAN: 203-999-10-081-L01-P**

**1.5 contact hours**

Activity Type: Application-based

Moderator: Joel E. Streim, MD

Learning Objectives: (1) assess for modifiable risk factors which may lead to agitation; (2) develop behavioral and other non-pharmacological approaches to treatment of behavioral disturbances; (3) utilize an evidenced-based approach to pharmacological management of the behavioral disturbances; and (4) review the etiology of agitation and aggression in dementia and delirium.

**Assessment for Modifiable Risk Factors**

Valisa C. Saunders, MN, APRN, GNP-BC

Gerontological Nurse Practitioner

Department of Geriatrics  
Kaiser Permanente Hawaii

**Non-pharmacologic Management Strategies**

Ladislav Volicer, MD, PhD  
Professor  
School of Aging Studies  
University of South Florida

**Pharmacologic Management Strategies**

Joel E. Streim, MD  
Professor of Psychiatry  
Geriatric Psychiatry Section  
University of Pennsylvania

**12:30 – 2:00 PM**

**STATE-OF-THE-ART CLINICAL UPDATES**

**UAN: 203-999-10-082-L01-P** **1.5 contact hours**

Activity Type: Knowledge-based

Learning Objectives: (1) discuss clinical impact/outcomes related to osteoporosis; (2) discuss clinical impact/outcomes related to pressure ulcers; (3) discuss clinical impact/outcomes related to urinary incontinence; and (4) discuss clinical impact/outcomes related to visual impairment in older adults.

**Osteoporosis**

Bruce R. Troen, MD  
Professor of Medicine  
University of Miami Miller School of Medicine & Miami VAHS

**Pressure Ulcers**

Barbara M. Bates-Jensen, PhD, RN  
Associate Professor  
School of Nursing & David Geffen School of Medicine, Geriatrics  
University of California, Los Angeles

**Urinary Incontinence**

Joseph G. Ouslander, MD  
Professor of Clinical Biomedical Science  
Florida Atlantic University

**Visual Impairment in Older Adults**

Hilary A. Beaver, MD  
Associate Professor of Clinical Ophthalmology  
The Methodist Hospital/ Weill-Cornell Medical College

**2:15 – 3:45 PM**

**STATE-OF-THE-ART CLINICAL UPDATES**

**UAN: 203-999-10-083-L01-P** **1.5 contact hours**

Activity Type: Knowledge-based

Learning Objectives: (1) discuss clinical impact/outcomes related to pneumonia; (2) discuss clinical impact/outcomes related to geriatric sexual functioning; (3) discuss clinical impact/outcomes related to elder mistreatment; and (4) discuss clinical impact/outcomes related to geriatric depression.

**Pneumonia**

Suzanne F. Bradley, MD  
Professor  
Internal Medicine  
University of Michigan Medical School

**Geriatric Sexual Functioning**

Catherine E. DuBeau, MD  
Professor of Medicine  
Department of Medicine and Family Medicine & Community Health

UMass Medical School

**Elder Mistreatment**

Laura Mosqueda, MD  
Director of Geriatrics, Professor of Family Medicine  
University of California, Irvine School of Medicine

**Geriatric Depression**

Joel E. Streim, MD  
Professor of Psychiatry  
University of Pennsylvania

**PLENARY SYMPOSIUM**

**4:30 pm – 6:00 pm**

**GERIATRICS UPDATE 2010**

**UAN: 203-999-10-084-L01-P**

**1.5 contact hours**

Activity Type: Application-based

Speaker:

William J. Hall, MD  
Director, Center for Healthy Aging  
Highland Hospital  
University of Rochester

Learning Objectives: (1) identify areas in clinical medicine where new strong evidence has been uncovered that should affect geriatric practice; (2) describe the results of a critical appraisal of this evidence; (3) review, summarize and evaluate the quality of the studies presented; and (4) implement these clinical advances in caring for older adults.

**INDUSTRY-SUPPORTED SYMPOSIA (dinner served)**

**6:30 – 9:00 PM**

**MANAGEMENT OF TYPE 2 DIABETES IN YOUR OLDER PATIENTS**

**UAN: 203-999-10-085-L01-P**

**2.0 contact hours**

Activity Type: Knowledge-based

Moderator: Amit A. Shah, MD

Supported by an educational grant from sanofi-aventis U.S. Inc.

Learning Objectives: (1) outline effective culturally competent strategies for patient education, outreach and management of Type II Diabetes in different communities; (2) describe the co-morbidities and geriatric syndromes common among older adults with T2DM; (3) discuss the need to take an individualized management approach to care; and (4) describe appropriate goals for glucose control in the older adult and describe the risks and benefits of treatment options.

**Culturally Competent Patient Education, Outreach and Management**

Sharon A. Brown, PhD, RN, FAAN  
Associate Dean for Research  
Director of the Cain Center for Nursing Research  
Professor, Dolores V. Sands Chair in Nursing Research  
The University of Texas at Austin

**Treatment of Type II Diabetes in Your Older Patient**

John M. Stafford, MD, PhD  
Assistant Professor  
Department of Medicine  
Division of Diabetes, Endocrinology, & Metabolism  
and Molecular Physiology and Biophysics  
Vanderbilt University Medical Center

**Developing a Diabetes Care Plan in Older Patients with Comorbidities**

Amit A. Shah, MD  
Section of Geriatric Medicine  
University of Texas Southwestern Medical School

**SATURDAY, MAY 15**

**INDUSTRY-SUPPORTED SYMPOSIA (breakfast served)**

**7:00 – 9:00 AM**

**ASSESSMENT AND MANAGEMENT OF CHRONIC OBSTRUCTIVE PULMONARY DISEASE IN OLDER ADULTS**

**UAN: 203-999-10-090-L01-P**

**2.0 contact hours**

Activity Type: Knowledge-based

Moderator:

Matthew K. McNabney, MD

Assistant Professor of Medicine

Johns Hopkins University School of Medicine

Supported by an educational grant from Pfizer.

Learning Objectives: (1) diagnose COPD and recognize the parameters of the disease as it progresses; (2) develop individual patient management goals for the COPD patient; (3) appropriately prescribe current pharmacologic and nonpharmacologic therapies for COPD; and (4) refer appropriate patients for hospice and palliative care in advanced COPD and identify barriers to advance care planning in COPD.

**Diagnosis and Management of Stable COPD in Older Adults**

Susan M. Levy, MD

Vice President Medical Affairs

Levindale Hebrew Geriatric Center and Hospital

**Management of COPD Exacerbations**

Carlos A.V. Fragoso, MD

Assistant Professor of Medicine (Geriatrics)

Yale School of Medicine

**Palliative Care Issues in COPD**

Vyjeyanthi S. Periyakoil, MD

Director, Stanford University Hospice and Palliative Medicine Fellowship Program

Stanford University School of Medicine

**SYMPOSIA**

**7:00 – 9:00 AM**

**CURRENT THERAPIES FOR HEART FAILURE MANAGEMENT**

**UAN: 203-999-10-086-L01-P**

**2.0 contact hours**

Activity Type: Knowledge-based

Moderator:

Michael W. Rich, MD, AGSF

Professor of Medicine

Cardiovascular Division

Washington University School of Medicine

Supported by educational grants from Medtronic, Inc. and St. Jude Medical, Inc.

Learning Objectives: (1) recognize the signs and symptoms of clinical heart failure; (2) review traditional and new drug therapies and integrate current scientific guidelines into clinical practice for heart failure patients; (3) recognize the role of counseling, education, dietary modifications for patients with heart failure; and (4) describe the indications, options, and limitations for cardiac device-based therapies in older patients with chronic heart failure.

**Assessment/Evaluation of Heart Failure in the Older Adult**

Ali Ahmed, MD, MPH

Associate Professor

Medicine and Epidemiology

University of Alabama at Birmingham and VA Medical Center

**Update on Therapeutic Options: Achieving Optimal Drug Therapy**

Richard S. Schofield, MD

Professor of Medicine

Division of Cardiovascular Medicine

University of Florida

**Adherence to HF Guidelines: Patient Education, Medication Compliance, and Dietary Modifications**

Sue Wingate, RN, PhD, CRNP  
Nurse Practitioner  
Department of Cardiology  
Kaiser Permanente Mid-Atlantic States

**Indications for Cardiac Device-based Therapy in Older Patients: Taking a Patient-centered Approach**

Raymond G. Cutro, Jr., MD, IBHRE, CCDS  
Assistant Professor of Medicine  
Division of Cardiology-Electrophysiology Section  
James A. Haley VA - University Of South Florida

**12:45 – 2:15 PM**

**UNDERSTANDING THE IMPACT OF ANTICHOLINERGICS ON THE AGING BRAIN**

**UAN: 203-999-10-087-L01-P**                      **1.5 contact hours**

Activity Type: Knowledge-based

Moderator:

Michael Steinman, MD  
Assistant Professor of Medicine  
Department of Geriatrics  
University of California, San Francisco

Developed by the Clinical Research in Dementia and the Polypharmacy Special Interest Groups.

Learning Objectives: (1) identify medications with anticholinergic properties and describe methods used to evaluate these properties; (2) describe the impact anticholinergic medications have on chronic cognitive and functional impairment; (3) discuss the impact of reducing anticholinergic burden in older adults; and (4) educate other practitioners caring for elderly patients about anticholinergic-induced or anticholinergic-advanced cognitive impairment.

**Measuring the Anticholinergic Activity of Medications**

Noll L. Campbell, PharmD, FASCP, BCPP, CGP  
Clinical Specialist in Geriatrics  
Wishard Health Services

**Identifying the Cognitive Effects of Anticholinergic Medications**

James L. Rudolph, MD, SM  
Geriatric Research, Education, and Clinical Center  
VA Boston Healthcare System

**Identifying the Impact of Anticholinergics on Functional Status**

Kaycee M. Sink, MD, MAS  
Assistant Professor of Medicine  
Gerontology and Geriatric Medicine  
Wake Forest University School of Medicine

**Impact of Reducing Anticholinergic Burden**

Malaz A. Boustani, MD, MPH  
Associate Professor of Medicine  
Indiana University School of Medicine

**SYMPOSIA**

**2:30 – 4:00 PM**

**PHARMACOTHERAPY UPDATE: 2010**

**UAN: 203-999-10-088-L01-P**                      **1.5 contact hours**

Activity Type: Knowledge-based

Moderator:

Shelly L. Gray, PharmD, MS  
Professor  
School of Pharmacy  
University of Washington

Developed by the Pharmacists Section.

Learning Objectives: (1) discuss the indication for use, mechanism of action, pharmacokinetics, dosing, safety and drug interactions for recently or soon to be approved medications; (2) discuss the potential advantages and disadvantages of the new medications compared to existing therapies; (3) discuss recent literature pertaining to medication-related problems in older adults (geriatric syndromes, adverse drug events, medication errors); and (4) identify medications that may be contributing to falls, confusion, urinary incontinence and other serious adverse events in older adults.

**New Medications: Recent Releases and Coming Attractions**

Christine M. Ruby, PharmD, BCPS  
Assistant Professor  
Pharmacy and Therapeutics  
University of Pittsburgh School of Pharmacy

**Update on Medication Related Problems in the Elderly**

Joseph T. Hanlon, PharmD, MS, BCPS  
Professor  
Department of Medicine (Geriatrics)  
University of Pittsburgh

**2:30 – 4:00 PM**

**THE OSTEOPOROSIS PIECE OF THE MULTI-MORBIDITY PUZZLE**

**UAN: 203-999-10-089-L01-P**

**1.5 contact hours**

Activity Type: Knowledge-based

Moderator: Cathleen S. Colon-Emeric, MD, MHS

Developed by the Osteoporosis Special Interest Group.

Learning Objectives: (1) identify common diseases that interact with bone, and review the evidence for their impact on osteoporosis and fracture risk; (2) identify common drugs that impact bone health and review the evidence for their impact on osteoporosis and fracture risk; (3) describe how osteoporosis interacts with other common diseases of aging to result in functional impairment and decline, using depression as a case example; and (4) provide a framework for how to make osteoporosis treatment decisions in the face of multiple co-morbidities and competing risks.

**Osteoporosis-Disease Interactions**

Cathleen S. Colon-Emeric, MD, MHS  
Associate Professor  
Department of Medicine, Geriatrics  
Duke and Durham VAMC

**Osteoporosis-Drug Interactions**

Mary Beth O'Connell, PharmD, BCPS, FASHP, FCCP  
Associate Professor  
Department of Pharmacy Practice  
Wayne State University

**Depression and Osteoporosis: An Example of the Osteoporosis Contribution to Functional Decline**

Elizabeth M. Haney, MD  
Assistant Professor  
Department of Medicine  
Oregon Health & Science University

**Section III**

**Program Information**

You must fully evaluate the program speaker(s) Rating Scale: (1) Excellent, (2) Good, (3) Fair, (4) Poor

**MANAGING ATRIAL FIBRILLATION IN THE OLDER PATIENT**

Pharmacy contact hours: 2.0 .2 CEUs UAN: 203-999-10-074-L01-P

Wednesday, May 12, 2010 7:00 – 9:00 pm
