

AGS / ADGAP Benchmarking Survey

Survey Guide

Our Survey Guide will help you prepare for, and complete, your AGS / ADGAP Benchmarking Survey (Survey). Review the Survey questions and information requirements, below, before accessing the on-line application to streamline the experience.

The Survey consists of questions aimed at discovering your current practice, productivity, and compensation measures. Once you have completed and submitted your Survey, you can go to the “Inform” page to review aggregated Survey responses from your peers, and benchmark yourself across various measures.

When completing the Survey, you will have the opportunity to designate a proxy to assist with the provision of certain questions clinical productivity data (those questions are identified with a “Proxy” label). A short description of the proxy options can be found at the [Geriatrics Compensation, Productivity Benchmarking Tool webpage](#). Note certain Survey questions may not be completed by a proxy, and you will need to complete the balance of non-proxy survey questions before you are granted access to the Survey data.

The Survey is designed to be quick and intuitive and is available any time on any device. The 10-15 minutes you spend completing the Survey provides immediate access to best-in-class market intelligence and a unique, career management tool. For best results, we recommend taking the Survey on a desktop computer or tablet the first year of the survey to best familiarize yourself with the application and its features.

Phairify does not request, collect, or use any personally identifiable or sensitive information, and all of your submitted data are completely anonymous and kept secure consistent with our Privacy Policy.

Welcome to Phairify!

The AGS / ADGAP Benchmarking Survey covers the subject areas listed below. A complete set of questions and answer options is provided on the following pages.

- Medical school status.
- Academic Degree(s).
- Years in practice of current specialty.
- wRVUs
- Professional functions (clinical, research, etc.).
- Practice type (private, academic, etc.).
- Clinical-patient care services by care setting (Home, Acute, Ambulatory, Long-Term Care).
- Clinical services delivered per care setting.
- Contractual relationship by practice type (employee, owner, independent contractor)
- Provision of locum tenens services.
- Leadership positions.
- Academic rank.
- On-call services (nights, weekends, etc.).
- Total hours worked.
- Income amounts reported.
- Employer-provided benefits.
- PTO days granted.

Assess the questions and collect the information resources you need to provide your answers. For example, refer to your federal tax forms to provide reported income amounts for the reporting period.

Questions? Please consult our FAQs, email support@phairfy.com, or call 888-400-3130.

AGS / ADGAP Benchmarking Survey

[For information only; sign in to Phairify to complete the AGS / ADGAP Benchmarking Survey]

What is your medical school status? [Proxy]

- US graduate of allopathic medical school
- US graduate of osteopathic medical school
- International graduate of international medical school
- US graduate of international medical school

For the reporting year (1/1/2025 - 12/31/25), what academic degrees do you hold? Select all degrees held during the reporting year. [Proxy]

- MD
- DO
- PhD
- MBA
- MHA
- MPH
- MPA
- MA
- MS/MSc
- JD
- MBBS/MBChB
- Other

For the reporting year (1/1/2025 - 12/31/25), how many years have you been in practice since the final year of training in your residency or fellowship? [Proxy]

- Less than 1 years
- 1-5 years
- 6-10 years
- 11-15 years
- 16-20 years
- 21-25 years
- Greater than 25 years

For the reporting year (1/1/2025 - 12/31/25), did you work for more than one of the following practice types?

- **Private practice** (includes Private Practice / Physician-Owned OR Physician-Owned (Health System Foundation Model)).
- **Non-Physician-Owned practice** (includes Hospital / Health System / Integrated Health System OR Independent Non-Profit Foundation (not affiliated with a health system) OR Private Investors / Publicly Traded Corporation / Retail OR Insurance Company).
- **Academic practice** (includes Academic / Medical School-Sponsored OR Academic / Non-Medical School-Sponsored OR Academic / Health System-Sponsored).
- **Government practice** (includes Government (e.g., Veterans Affairs))

- ___ Yes
- ___ No

If you answered “Yes” to the preceding question, please answer the next two questions. If you answered “No,” please skip the next two questions.

You indicated that you worked for multiple practice types. Please estimate how your total professional time was spent on each of the professional functions listed below.

- _____% Clinical-Patient Care
- _____% Teaching or Training in the context of delivering patient care
- _____% Teaching or Training in a didactic setting (e.g., classroom)
- _____% Administrative or Management (e.g., APPs, Committees, Mentor functions)
- _____% Research (includes clinical trial recruitment)

You indicated that you worked across multiple practice types. Please estimate how your total professional time was spent delivering clinical-patient care in each of the following care settings. *As used here, a “Home Care setting” means a patient’s home, an assisted living facility, a group home (that is not licensed as an intermediate care facility for individuals with intellectual disabilities), a custodial care facility, or a residential substance abuse treatment facility. As used here, a “Long-Term Care facility” includes the following: (1) Skilled nursing facilities (including nursing homes (NH) in Continuing Care Retirement Communities (CCRCs) and Veterans Affairs’ (VA) Community Living Centers (CLCs)); (2) Assisted living facilities / Residential care facilities (if provider does not go to a NH); and (3) Program of All-Inclusive Care for the Elderly (PACE).*

- ___% Home care
- ___% Acute care
- ___% Ambulatory care
- ___% Long-Term care

For the reporting year (1/1/2025 - 12/31/25), what was the total number of wRVUs you generated, regardless of what your compensation was based upon? [Proxy]

- ___ wRVUs

For the reporting year (1/1/2025 - 12/31/25), estimate the percentage of your professional time spent working for the following practice types. *Note: For purposes of subsequent survey questions based on Practice Type, the following groupings apply:*

“Private practice” = Private Practice / Physician-Owned OR Physician-Owned under a Health System Foundation Model.

“Non-Physician-Owned practice” = Hospital / Health System / Integrated Health System OR Independent Non-Profit Foundation (not affiliated with a health system) OR Private Investors / Publicly Traded Corporation / Retail OR Insurance Company.

“Academic practice” = Academic / Medical School-Sponsored OR Academic / Non-Medical School-Sponsored OR Academic / Health System-Sponsored.

“Government practice” = Government (e.g., Veterans Affairs).

If you delivered clinical-patient care during the reporting period for more than one practice type within the same Practice Type grouping, your responses to subsequent survey questions relating to that Practice Type grouping should relate to the Practice Type for which you devoted the most of your professional effort for that Practice Type grouping. For example, if you provided clinical-patient care for a Health System and for an Insurance Company, and, as between those two Practice Types you delivered the most of your clinical-patient care effort to the Health System, your responses to questions relating to your “Non-Physician-Owned practice” should relate to your work for the Health System.

- _____ % Private Practice / Physician-Owned
- _____ % Physician-Owned (Health System Foundation Model)
- _____ % Hospital / Health System / Integrated Health System (no academic affiliation)
- _____ % Independent Non-Profit Foundation (not affiliated with a health system)
- _____ % Academic / Medical School-Sponsored
- _____ % Academic / Non-Medical School-Sponsored
- _____ % Academic / Health System-Sponsored
- _____ % Government (e.g., Veterans Affairs)
- _____ % Private Investors / Publicly Traded Corporation / Retail
- _____ % Insurance Company
- _____ % Other

If you selected a “private practice” type above, please go to page 10 and answer the questions provided, and then return to page 6.

If you selected an “academic practice” type above, please go to page 15 and answer the questions provided, and then return to page 6.

If you selected a “government practice” type above, please go to page 20 and answer the questions provided, and then return to page 6.

If you selected a “non-physician-owned practice” type above, please go to page 25 and answer the questions provided, and then return to page 6.

If you were to consider another career opportunity, what would be your desired practice type?

- Private Practice / Physician-Owned
- Physician-Owned (Health System Foundation Model)
- Hospital / Health System / Integrated Health System (no academic affiliation)
- Independent Non-Profit Foundation (not affiliated with a health system)
- Academic / Medical School-Sponsored
- Academic / Non-Medical School-Sponsored
- Academic / Health System-Sponsored
- Government (e.g., Veterans Affairs)
- Private Investors / Publicly Traded Corporation / Retail
- Insurance Company
- No preference (any of the above)

If you were to consider another career opportunity, which professional functions must it include?

- Clinical-Patient Care
- Teaching or Training (e.g., Residents, Learners)
- Administrative or Management (e.g., APPs, Committees)
- Research (includes clinical trial recruitment)
- All of the above

For the reporting year (1/1/2025 - 12/31/25), did you provide locum tenens clinical services?

- Yes, full time (I do not have permanent employment in one practice)
- Yes, part time (I had more than 1 locum tenens assignment)
- No

If you were to consider another career opportunity, might it include the provision of locum tenens clinical services?

- Yes
- No

For the reporting year (1/1/2025 - 12/31/25), what was your academic rank during the last academic year? [*Proxy*]

- Instructor
- Assistant Professor
- Associate Professor

- Professor
- Affiliated / Adjunct Faculty (Clinical Assistant / Associate / Professor)
- Other
- I was not affiliated with an academic institution.

For the reporting year (1/1/2025 - 12/31/25), what leadership position(s) did you serve in, if any? [Proxy]

- Residency Program Director
- Fellowship Training Program Director
- Assistant Residency or Fellowship Program Director
- Division Chief / Division Director
- Associate Chief
- Interim Chief
- Department Chair
- Interim Department Chair
- Vice Chair (i.e., Clinical Affairs, Education, Research)
- Medical Director
- Interim Medical Director
- Executive / Senior Leader (CEO, CMO, etc.)
- Other
- None

For the reporting year (1/1/2025 - 12/31/25), did you provide on-call services? [Proxy]

- Yes
- No

If you answered “Yes” to the prior question regarding call services, please answer the following question:

For the reporting year (1/1/2025 - 12/31/25), in a typical month, how many 24-hour equivalents of call did you take? For example, if you took four 12-hour call shifts, that would equate to two 24-hour equivalents. If you took nine 8-hour call shifts, that would equate to three 24-hour equivalents. Use the following formula to calculate 24-hour equivalents: $(\text{Hours per call shift} \times \text{Number of shifts per month}) / 24 = \text{24-Hour Equivalents}$.

- _____ 24-hour equivalents

For the reporting year (1/1/2025 - 12/31/25), on average, how many total hours did you work per week (i.e., time spent on all professional activities associated with your employment)?

"Total Hours" includes all forms of clinical care, administrative and management activity,

teaching, research, meetings and leadership activities but excludes time spent on call not actively providing call-related clinical services.

- Less than 20 hours
- 21-30 hours
- 31-40 hours
- 41-50 hours
- 51-60 hours
- 61-70 hours
- 71-80 hours
- 81 or more hours

For the reporting year (1/1/2025 - 12/31/25), for the professional work you reported in this survey, what was your total cash compensation? *To answer this question, please report ONLY income derived from professional services for Clinical-Patient Care, Teaching, Research, and/or Administrative / Management work reported here (not ancillary income). Report amounts using the slider or entering it in the text box. Round amounts to the nearest \$100.*

- \$_____

If you were to consider another career opportunity, what is the minimum total cash compensation you would consider?

- \$_____

For the reporting year (1/1/2025 - 12/31/25), which of the following benefits did your employer pay for, whether in whole or in part? *Select all that apply.*

- Retirement
- Health Insurance
- Flexible spending accounts (for Healthcare and/or Childcare)
- Disability Insurance
- Life Insurance
- Malpractice insurance
- Professional dues
- Licensing fees
- CME stipend
- Maternity Leave
- Paternity Leave
- Paid Holidays
- Childcare / Dependent Care Stipend
- None
- All of the above

For the reporting year (1/1/2025 - 12/31/25), how many PTO days were you granted? *Paid time off (PTO) or personal time off is a benefit in which the employer compensates employees during their absence from work for sick time, vacations and personal appointments. Please indicate number of PTO days granted (if PTO is granted as a number of hours, divide that number by 8 to calculate a "PTO Days" amount.) As used here, PTO does not include any time granted for attending CME activities.*

- _____ PTO Days

Are you interested in any of the following revenue-generating non-clinical work opportunities?

- ___ Expert witness
- ___ Industry consulting
- ___ Speaking / Writing / Podcasting
- ___ Medical surveys
- ___ Editorial roles
- ___ No
- ___ All of the above

If you were to consider another career opportunity, in what region(s) would you want to work? *Select all that apply.*

- ___ Pacific (West): AK, CA, HI, OR, WA
- ___ Mountain (West): AZ, CO, ID, MT, NV, NM, UT, WY
- ___ Midwest-West (Midwest): IA, KS, MN, MO, NE, ND, SD
- ___ Midwest-East (Midwest): IL, IN, MI, OH, WI
- ___ New England (Northeast): CT, ME, MA, NH, RI, VT
- ___ Middle Atlantic (Northeast): NJ, NY, PA
- ___ South-Atlantic (South): DE, DC, FL, GA, MD, NC, SC, VA, WV
- ___ South-East (South): AL, KY, MS, TN
- ___ South-West (South): AR, LA, OK, TX
- ___ Any of the above

Private Practice questions

If you answered “private practice” to the question on page 5 regarding your practice type, please answer the following questions:

For the reporting year (1/1/2025 - 12/31/25), what was your contractual relationship with your private practice? As used here “private practice” includes Private Practice / Physician-Owned OR Physician-Owned under a Health System Foundation Model.

- Employee (non-owner)
- Independent Contractor
- Owner

For the reporting year (1/1/2025 - 12/31/25), estimate the percentage of your professional time spent on the functions below for your private practice. Enter amounts to equal 100%. Entries round to the nearest 5%.

- _____% Clinical-Patient Care
- _____% Teaching or Training in the context of delivering patient care
- _____% Teaching or Training in a didactic setting (e.g., classroom)
- _____% Administrative or Management (e.g., APPs, Committees)
- _____% Research (includes clinical trial recruitment)

For the reporting year (1/1/2025 - 12/31/25), please estimate the percentage of your professional time spent delivering clinical-patient care services for your private practice in each of the following care settings. As used here, a “Home Care setting” means a patient’s home, an assisted living facility, a group home (that is not licensed as an intermediate care facility for individuals with intellectual disabilities), a custodial care facility, or a residential substance abuse treatment facility. As used here, a “Long-Term Care facility” includes the following: (1) Skilled nursing facilities (including nursing homes (NH) in Continuing Care Retirement Communities (CCRCs) and Veterans Affairs’ (VA) Community Living Centers (CLCs)); (2) Assisted living facilities / Residential care facilities (if provider does not go to a NH); and (3) Program of All-Inclusive Care for the Elderly (PACE). Responses should total 100%.

- _____% Home Care
- _____% Acute Care
- _____% Ambulatory Care
- _____% Long-Term Care

Home Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the specific clinical-patient care service type(s) you provided as a percentage of your total time spent delivering clinical services in a Home Care setting for your private practice. For purposes of this question, the

clinical-patient service types are the following: Outpatient, in home, not primary care provider (Attending of record providing consultation to other services in the outpatient setting); Outpatient, in home, primary care provider (Attending of record for panel of patients for whom you provide primary care services including home-based primary care (the referring provider)); Palliative care consultation (Attending of record providing in- and out-patient palliative care consultation services); or eConsults (Attending of record providing consultative services using telemedicine platform). Enter amounts to equal 100%.

- _____% Outpatient, in home, not primary care provider
- _____% Outpatient, in home, primary care provider
- _____% Palliative care consultation
- _____% eConsults
- _____% Other

Acute Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the specific clinical-patient care service type(s) you provided as a percentage of your total time spent delivering clinical services in an Acute Care setting for your private practice. For purposes of this question, the clinical-patient service types are the following: Inpatient geriatrics consultative attending (Attending of record for team providing consultant to other); Inpatient geriatrics service attending of record (Attending of record for distinct inpatient care team). Enter amounts to equal 100%.

- _____% Inpatient geriatrics consultative attending
- _____% Inpatient geriatrics service attending of record - Acute Care for Elderly (ACE) unit
- _____% Inpatient geriatrics service attending of record - Mobile Acute Care for Elderly (MACE) service
- _____% Inpatient geriatrics service attending of record - Surgery or non-surgery co-management
- _____% Other inpatient geriatrics service attending of record
- _____% Other

For the reporting year (1/1/25 – 12/31/25), how many new consults did you see on average for a typical service day when providing inpatient geriatrics consultative services in an Acute Care setting for your private practice?

- ___ new consults

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics consultative attending services in an Acute Care setting for your private practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics services as the attending of record in an Acute Care setting for your private practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics services as the attending of record in an Acute Care setting for your private practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics service attending of record – Acute Care for the Elderly (ACE) unit services for your private practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics service attending of record – Acute Care for the Elderly (ACE) unit services for your private practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics service attending of record – Mobile Acute Care for the Elderly (MACE) services for your private practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics service attending of record – Mobile Acute Care for the Elderly (MACE) services for your private practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics service attending of record – Surgery or Non-Surgery co-management in an Acute Care setting for your private practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics service attending of record – Surgery or Non-Surgery co-management in an Acute Care setting for your private practice?

- ___ patients

Ambulatory Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the specific clinical-patient care service type(s) you provided as a percentage of your total time spent delivering clinical services in an Ambulatory Care setting for your private practice. For purposes of this question, the clinical-patient service types are the following: Outpatient consultation (Attending of record providing consultation to other services in the outpatient setting); Outpatient primary care provider (Attending of record for panel of patients for whom you provide primary care services including home-based primary care (the referring provider)); Palliative care consultation (Attending of record providing in- and out-patient palliative care consultation services). Enter amounts to equal 100%.

- ___% Outpatient consultation
- ___% Outpatient primary care provider (geriatrics-focused)
- ___% Palliative care consultation
- ___% Other

For the reporting year (1/1/2025 - 12/31/25), in a typical half-day clinic session delivering outpatient consultation services in an Ambulatory Care setting for your private practice, please estimate the average number of patient visits scheduled.

- ___ patient visits

Of the average number of patient visits scheduled in that typical half-day clinic session, what were the numbers of new patient consults and return visit consults?

- ___ new patient consults
- ___ return visit consults

For the reporting year (1/1/2025 - 12/31/25), in a typical clinic service week delivering outpatient primary care provider (geriatrics-focused) services in an Ambulatory Care setting for your private practice, please estimate your average primary care patient panel size. As used here, "primary care patient" means a patient specifically assigned to you or your practice for the receipt of care services.

- ___ patients

For the reporting year (1/1/2025 - 12/31/25), in a typical half-day clinic session delivering outpatient primary care provider (geriatrics-focused) services in an Ambulatory Care setting for your private practice, please estimate the average number of patient visits scheduled.

- ___ patient visits

For the reporting year (1/1/2025 - 12/31/25), in a typical half-day clinic session delivering palliative care consultation services in an Ambulatory Care setting for your private practice, please estimate the average number of patient visits scheduled.

- ___ patient visits

Of the average number of patient visits scheduled in that typical half-day clinic session, what were the numbers of new patient consults and return visit consults?

- ___ new patient consults
- ___ return visit consults

Long-Term Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the percentage of clinical-patient care services you provided to each of the following types of Long-Term Care facilities for your private practice?

- ___% Nursing Home
- ___% Continuing Care Retirement Community (CCRC)
- ___% Assisted Living Facility / Residential Care Facility
- ___% VA Community Living Center (CLC)
- ___% Program for All-Inclusive Care of the Elderly (PACE)

Academic Practice questions

If you answered “academic practice” to the question on page 5 regarding your practice type, please answer the following questions:

For the reporting year (1/1/2025 - 12/31/25), what was your contractual relationship with your academic practice? As used here “private practice” includes Private Practice / Physician-Owned OR Physician-Owned under a Health System Foundation Model.

- Employee (non-owner)
- Independent Contractor
- Owner

For the reporting year (1/1/2025 - 12/31/25), estimate the percentage of your professional time spent on the functions below for your academic practice. Enter amounts to equal 100%. Entries round to the nearest 5%.

- _____% Clinical-Patient Care
- _____% Teaching or Training in the context of delivering patient care
- _____% Teaching or Training in a didactic setting (e.g., classroom)
- _____% Administrative or Management (e.g., APPs, Committees)
- _____% Research (includes clinical trial recruitment)

For the reporting year (1/1/2025 - 12/31/25), please estimate the percentage of your professional time spent delivering clinical-patient care services for your academic practice in each of the following care settings. As used here, a “Home Care setting” means a patient’s home, an assisted living facility, a group home (that is not licensed as an intermediate care facility for individuals with intellectual disabilities), a custodial care facility, or a residential substance abuse treatment facility. As used here, a “Long-Term Care facility” includes the following: (1) Skilled nursing facilities (including nursing homes (NH) in Continuing Care Retirement Communities (CCRCs) and Veterans Affairs’ (VA) Community Living Centers (CLCs)); (2) Assisted living facilities / Residential care facilities (if provider does not go to a NH); and (3) Program of All-Inclusive Care for the Elderly (PACE). Responses should total 100%.

- _____% Home Care
- _____% Acute Care
- _____% Ambulatory Care
- _____% Long-Term Care

Home Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the specific clinical-patient care service type(s) you provided as a percentage of your total time spent delivering clinical services in a Home Care setting for your academic practice. For purposes of this question, the

clinical-patient service types are the following: Outpatient, in home, not primary care provider (Attending of record providing consultation to other services in the outpatient setting); Outpatient, in home, primary care provider (Attending of record for panel of patients for whom you provide primary care services including home-based primary care (the referring provider)); Palliative care consultation (Attending of record providing in- and out-patient palliative care consultation services); or eConsults (Attending of record providing consultative services using telemedicine platform). Enter amounts to equal 100%.

- _____% Outpatient, in home, not primary care provider
- _____% Outpatient, in home, primary care provider
- _____% Palliative care consultation
- _____% eConsults
- _____% Other

Acute Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the specific clinical-patient care service type(s) you provided as a percentage of your total time spent delivering clinical services in an Acute Care setting for your academic practice. For purposes of this question, the clinical-patient service types are the following: Inpatient geriatrics consultative attending (Attending of record for team providing consultant to other); Inpatient geriatrics service attending of record (Attending of record for distinct inpatient care team). Enter amounts to equal 100%.

- _____% Inpatient geriatrics consultative attending
- _____% Inpatient geriatrics service attending of record - Acute Care for Elderly (ACE) unit
- _____% Inpatient geriatrics service attending of record - Mobile Acute Care for Elderly (MACE) service
- _____% Inpatient geriatrics service attending of record - Surgery or non-surgery co-management
- _____% Other inpatient geriatrics service attending of record
- _____% Other

For the reporting year (1/1/25 – 12/31/25), how many new consults did you see on average for a typical service day when providing inpatient geriatrics consultative services in an Acute Care setting for your academic practice?

- ___ new consults

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics consultative attending services in an Acute Care setting for your academic practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics services as the attending of record in an Acute Care setting for your academic practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics services as the attending of record in an Acute Care setting for your academic practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics service attending of record – Acute Care for the Elderly (ACE) unit services for your academic practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics service attending of record – Acute Care for the Elderly (ACE) unit services for your academic practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics service attending of record – Mobile Acute Care for the Elderly (MACE) services for your academic practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics service attending of record – Mobile Acute Care for the Elderly (MACE) services for your academic practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics service attending of record – Surgery or Non-Surgery co-management in an Acute Care setting for your academic practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics service attending of record – Surgery or Non-Surgery co-management in an Acute Care setting for your academic practice?

- ___ patients

Ambulatory Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the specific clinical-patient care service type(s) you provided as a percentage of your total time spent delivering clinical services in an Ambulatory Care setting for your academic practice. For purposes of this question, the clinical-patient service types are the following: Outpatient consultation (Attending of record providing consultation to other services in the outpatient setting); Outpatient primary care provider (Attending of record for panel of patients for whom you provide primary care services including home-based primary care (the referring provider)); Palliative care consultation (Attending of record providing in- and out-patient palliative care consultation services). Enter amounts to equal 100%.

- ___% Outpatient consultation
- ___% Outpatient primary care provider (geriatrics-focused)
- ___% Palliative care consultation
- ___% Other

For the reporting year (1/1/2025 - 12/31/25), in a typical half-day clinic session delivering outpatient consultation services in an Ambulatory Care setting for your academic practice, please estimate the average number of patient visits scheduled.

- ___ patient visits

Of the average number of patient visits scheduled in that typical half-day clinic session, what were the numbers of new patient consults and return visit consults?

- ___ new patient consults
- ___ return visit consults

For the reporting year (1/1/2025 - 12/31/25), in a typical clinic service week delivering outpatient primary care provider (geriatrics-focused) services in an Ambulatory Care setting for your academic practice, please estimate your average primary care patient panel size. As used here, "primary care patient" means a patient specifically assigned to you or your practice for the receipt of care services.

- ___ patients

For the reporting year (1/1/2025 - 12/31/25), in a typical half-day clinic session delivering outpatient primary care provider (geriatrics-focused) services in an Ambulatory Care setting for your academic practice, please estimate the average number of patient visits scheduled.

- ___ patient visits

For the reporting year (1/1/2025 - 12/31/25), in a typical half-day clinic session delivering palliative care consultation services in an Ambulatory Care setting for your academic practice, please estimate the average number of patient visits scheduled.

- ___ patient visits

Of the average number of patient visits scheduled in that typical half-day clinic session, what were the numbers of new patient consults and return visit consults?

- ___ new patient consults
- ___ return visit consults

Long-Term Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the percentage of clinical-patient care services you provided to each of the following types of Long-Term Care facilities for your academic practice?

- ___% Nursing Home
- ___% Continuing Care Retirement Community (CCRC)
- ___% Assisted Living Facility / Residential Care Facility
- ___% VA Community Living Center (CLC)
- ___% Program for All-Inclusive Care of the Elderly (PACE)

Government Practice questions

If you answered “government practice” to the question on page 5 regarding your practice type, please answer the following questions:

For the reporting year (1/1/2025 - 12/31/25), what was your contractual relationship with your government practice? As used here “private practice” includes Private Practice / Physician-Owned OR Physician-Owned under a Health System Foundation Model.

- Employee (non-owner)
- Independent Contractor
- Other

For the reporting year (1/1/2025 - 12/31/25), estimate the percentage of your professional time spent on the functions below for your government practice. Enter amounts to equal 100%. Entries round to the nearest 5%.

- _____% Clinical-Patient Care
- _____% Teaching or Training in the context of delivering patient care
- _____% Teaching or Training in a didactic setting (e.g., classroom)
- _____% Administrative or Management (e.g., APPs, Committees)
- _____% Research (includes clinical trial recruitment)

For the reporting year (1/1/2025 - 12/31/25), please estimate the percentage of your professional time spent delivering clinical-patient care services for your government practice in each of the following care settings. As used here, a “Home Care setting” means a patient’s home, an assisted living facility, a group home (that is not licensed as an intermediate care facility for individuals with intellectual disabilities), a custodial care facility, or a residential substance abuse treatment facility. As used here, a “Long-Term Care facility” includes the following: (1) Skilled nursing facilities (including nursing homes (NH) in Continuing Care Retirement Communities (CCRCs) and Veterans Affairs’ (VA) Community Living Centers (CLCs)); (2) Assisted living facilities / Residential care facilities (if provider does not go to a NH); and (3) Program of All-Inclusive Care for the Elderly (PACE). Responses should total 100%.

- _____% Home Care
- _____% Acute Care
- _____% Ambulatory Care
- _____% Long-Term Care

Home Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the specific clinical-patient care service type(s) you provided as a percentage of your total time spent delivering clinical services in a Home Care setting for your government practice. For purposes of this question,

the clinical-patient service types are the following: Outpatient, in home, not primary care provider (Attending of record providing consultation to other services in the outpatient setting); Outpatient, in home, primary care provider (Attending of record for panel of patients for whom you provide primary care services including home-based primary care (the referring provider)); Palliative care consultation (Attending of record providing in- and out-patient palliative care consultation services); or eConsults (Attending of record providing consultative services using telemedicine platform). Enter amounts to equal 100%.

- _____% Outpatient, in home, not primary care provider
- _____% Outpatient, in home, primary care provider
- _____% Palliative care consultation
- _____% eConsults
- _____% Other

Acute Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the specific clinical-patient care service type(s) you provided as a percentage of your total time spent delivering clinical services in an Acute Care setting for your government practice. For purposes of this question, the clinical-patient service types are the following: Inpatient geriatrics consultative attending (Attending of record for team providing consultant to other); Inpatient geriatrics service attending of record (Attending of record for distinct inpatient care team). Enter amounts to equal 100%.

- _____% Inpatient geriatrics consultative attending
- _____% Inpatient geriatrics service attending of record - Acute Care for Elderly (ACE) unit
- _____% Inpatient geriatrics service attending of record - Mobile Acute Care for Elderly (MACE) service
- _____% Inpatient geriatrics service attending of record - Surgery or non-surgery co-management
- _____% Other inpatient geriatrics service attending of record
- _____% Other

For the reporting year (1/1/25 – 12/31/25), how many new consults did you see on average for a typical service day when providing inpatient geriatrics consultative services in an Acute Care setting for your government practice?

- ___ new consults

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics consultative attending services in an Acute Care setting for your government practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics services as the attending of record in an Acute Care setting for your government practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics services as the attending of record in an Acute Care setting for your government practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics service attending of record – Acute Care for the Elderly (ACE) unit services for your government practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics service attending of record – Acute Care for the Elderly (ACE) unit services for your government practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics service attending of record – Mobile Acute Care for the Elderly (MACE) services for your government practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics service attending of record – Mobile Acute Care for the Elderly (MACE) services for your government practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics service attending of record – Surgery or Non-Surgery co-management in an Acute Care setting for your government practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics service attending of record – Surgery or Non-Surgery co-management in an Acute Care setting for your government practice?

- ___ patients

Ambulatory Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the specific clinical-patient care service type(s) you provided as a percentage of your total time spent delivering clinical services in an Ambulatory Care setting for your government practice. For purposes of this question, the clinical-patient service types are the following: Outpatient consultation (Attending of record providing consultation to other services in the outpatient setting); Outpatient primary care provider (Attending of record for panel of patients for whom you provide primary care services including home-based primary care (the referring provider)); Palliative care consultation (Attending of record providing in- and out-patient palliative care consultation services). Enter amounts to equal 100%.

- ___% Outpatient consultation
- ___% Outpatient primary care provider (geriatrics-focused)
- ___% Palliative care consultation
- ___% Other

For the reporting year (1/1/2025 - 12/31/25), in a typical half-day clinic session delivering outpatient consultation services in an Ambulatory Care setting for your government practice, please estimate the average number of patient visits scheduled.

- ___ patient visits

Of the average number of patient visits scheduled in that typical half-day clinic session, what were the numbers of new patient consults and return visit consults?

- ___ new patient consults
- ___ return visit consults

For the reporting year (1/1/2025 - 12/31/25), in a typical clinic service week delivering outpatient primary care provider (geriatrics-focused) services in an Ambulatory Care setting for your government practice, please estimate your average primary care patient panel size. As used here, "primary care patient" means a patient specifically assigned to you or your practice for the receipt of care services.

- ___ patients

For the reporting year (1/1/2025 - 12/31/25), in a typical half-day clinic session delivering outpatient primary care provider (geriatrics-focused) services in an Ambulatory Care setting for your government practice, please estimate the average number of patient visits scheduled.

- ___ patient visits

For the reporting year (1/1/2025 - 12/31/25), in a typical half-day clinic session delivering palliative care consultation services in an Ambulatory Care setting for your government practice, please estimate the average number of patient visits scheduled.

- ___ patient visits

Of the average number of patient visits scheduled in that typical half-day clinic session, what were the numbers of new patient consults and return visit consults?

- ___ new patient consults
- ___ return visit consults

Long-Term Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the percentage of clinical-patient care services you provided to each of the following types of Long-Term Care facilities for your government practice?

- ___% Nursing Home
- ___% Continuing Care Retirement Community (CCRC)
- ___% Assisted Living Facility / Residential Care Facility
- ___% VA Community Living Center (CLC)
- ___% Program for All-Inclusive Care of the Elderly (PACE)

Non-Physician-Owned Practice questions

If you answered “non-physician-owned practice” to the question on page 5 regarding your practice type, please answer the following questions:

For the reporting year (1/1/2025 - 12/31/25), what was your contractual relationship with your non-physician-owned practice? As used here “private practice” includes Private Practice / Physician-Owned OR Physician-Owned under a Health System Foundation Model.

- Employee (non-owner)
- Independent Contractor
- Other

For the reporting year (1/1/2025 - 12/31/25), estimate the percentage of your professional time spent on the functions below for your non-physician-owned practice. Enter amounts to equal 100%. Entries round to the nearest 5%.

- _____% Clinical-Patient Care
- _____% Teaching or Training in the context of delivering patient care
- _____% Teaching or Training in a didactic setting (e.g., classroom)
- _____% Administrative or Management (e.g., APPs, Committees)
- _____% Research (includes clinical trial recruitment)

For the reporting year (1/1/2025 - 12/31/25), please estimate the percentage of your professional time spent delivering clinical-patient care services for your non-physician-owned practice in each of the following care settings. As used here, a “Home Care setting” means a patient’s home, an assisted living facility, a group home (that is not licensed as an intermediate care facility for individuals with intellectual disabilities), a custodial care facility, or a residential substance abuse treatment facility. As used here, a “Long-Term Care facility” includes the following: (1) Skilled nursing facilities (including nursing homes (NH) in Continuing Care Retirement Communities (CCRCs) and Veterans Affairs’ (VA) Community Living Centers (CLCs)); (2) Assisted living facilities / Residential care facilities (if provider does not go to a NH); and (3) Program of All-Inclusive Care for the Elderly (PACE). Responses should total 100%.

- _____% Home Care
- _____% Acute Care
- _____% Ambulatory Care
- _____% Long-Term Care

Home Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the specific clinical-patient care service type(s) you provided as a percentage of your total time spent delivering clinical services in a Home Care setting for your non-physician-owned practice. For purposes of this

question, the clinical-patient service types are the following: Outpatient, in home, not primary care provider (Attending of record providing consultation to other services in the outpatient setting); Outpatient, in home, primary care provider (Attending of record for panel of patients for whom you provide primary care services including home-based primary care (the referring provider)); Palliative care consultation (Attending of record providing in- and out-patient palliative care consultation services); or eConsults (Attending of record providing consultative services using telemedicine platform). Enter amounts to equal 100%.

- _____% Outpatient, in home, not primary care provider
- _____% Outpatient, in home, primary care provider
- _____% Palliative care consultation
- _____% eConsults
- _____% Other

Acute Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the specific clinical-patient care service type(s) you provided as a percentage of your total time spent delivering clinical services in an Acute Care setting for your non-physician-owned practice. For purposes of this question, the clinical-patient service types are the following: Inpatient geriatrics consultative attending (Attending of record for team providing consultant to other); Inpatient geriatrics service attending of record (Attending of record for distinct inpatient care team). Enter amounts to equal 100%.

- _____% Inpatient geriatrics consultative attending
- _____% Inpatient geriatrics service attending of record - Acute Care for Elderly (ACE) unit
- _____% Inpatient geriatrics service attending of record - Mobile Acute Care for Elderly (MACE) service
- _____% Inpatient geriatrics service attending of record - Surgery or non-surgery co-management
- _____% Other inpatient geriatrics service attending of record
- _____% Other

For the reporting year (1/1/25 – 12/31/25), how many new consults did you see on average for a typical service day when providing inpatient geriatrics consultative services in an Acute Care setting for your non-physician-owned practice?

- ____ new consults

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics consultative attending services in an Acute Care setting for your non-physician-owned practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics services as the attending of record in an Acute Care setting for your non-physician-owned practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics services as the attending of record in an Acute Care setting for your non-physician-owned practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics service attending of record – Acute Care for the Elderly (ACE) unit services for your non-physician-owned practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics service attending of record – Acute Care for the Elderly (ACE) unit services for your non-physician-owned practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics service attending of record – Mobile Acute Care for the Elderly (MACE) services for your non-physician-owned practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics service attending of record – Mobile Acute Care for the Elderly (MACE) services for your non-physician-owned practice?

- ___ patients

For the reporting year (1/1/25 – 12/31/25), how many new admissions did you see on average for a typical service day when providing inpatient geriatrics service attending of

record – Surgery or Non-Surgery co-management in an Acute Care setting for your non-physician-owned practice?

- ___ new admissions

For the reporting year (1/1/25 – 12/31/25), what was the average daily service census (new + existing patients) for a typical service day delivering inpatient geriatrics service attending of record – Surgery or Non-Surgery co-management in an Acute Care setting for your non-physician-owned practice?

- ___ patients

Ambulatory Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the specific clinical-patient care service type(s) you provided as a percentage of your total time spent delivering clinical services in an Ambulatory Care setting for your non-physician-owned practice. For purposes of this question, the clinical-patient service types are the following: Outpatient consultation (Attending of record providing consultation to other services in the outpatient setting); Outpatient primary care provider (Attending of record for panel of patients for whom you provide primary care services including home-based primary care (the referring provider)); Palliative care consultation (Attending of record providing in- and out-patient palliative care consultation services). Enter amounts to equal 100%.

- ___% Outpatient consultation
- ___% Outpatient primary care provider (geriatrics-focused)
- ___% Palliative care consultation
- ___% Other

For the reporting year (1/1/2025 - 12/31/25), in a typical half-day clinic session delivering outpatient consultation services in an Ambulatory Care setting for your non-physician-owned practice, please estimate the average number of patient visits scheduled.

- ___ patient visits

Of the average number of patient visits scheduled in that typical half-day clinic session, what were the numbers of new patient consults and return visit consults?

- ___ new patient consults
- ___ return visit consults

For the reporting year (1/1/2025 - 12/31/25), in a typical clinic service week delivering outpatient primary care provider (geriatrics-focused) services in an Ambulatory Care setting for your non-physician-owned practice, please estimate your average primary care patient

panel size. As used here, "primary care patient" means a patient specifically assigned to you or your practice for the receipt of care services.

- ___ patients

For the reporting year (1/1/2025 - 12/31/25), in a typical half-day clinic session delivering outpatient primary care provider (geriatrics-focused) services in an Ambulatory Care setting for your non-physician-owned practice, please estimate the average number of patient visits scheduled.

- ___ patient visits

For the reporting year (1/1/2025 - 12/31/25), in a typical half-day clinic session delivering palliative care consultation services in an Ambulatory Care setting for your non-physician-owned practice, please estimate the average number of patient visits scheduled.

- ___ patient visits

Of the average number of patient visits scheduled in that typical half-day clinic session, what were the numbers of new patient consults and return visit consults?

- ___ new patient consults
- ___ return visit consults

Long-Term Care Setting

For the reporting year (1/1/2025 - 12/31/25), estimate the percentage of clinical-patient care services you provided to each of the following types of Long-Term Care facilities for your non-physician-owned practice?

- ___% Nursing Home
- ___% Continuing Care Retirement Community (CCRC)
- ___% Assisted Living Facility / Residential Care Facility
- ___% VA Community Living Center (CLC)
- ___% Program for All-Inclusive Care of the Elderly (PACE)
